

I specialise in highly unobtrusive, contemporary, reportage style filming. It is my aim to shoot just what naturally unfolds on the day. Nothing is staged or set up and I make a point of keeping out of the way, so I can capture lots of small details that I would not be able to if people knew I was there. It goes without saying I use modern HD kit, that is not oversized, for the occasion!

## **CLASSIC +1 - £1500**

This package features up to 10 hours of filming with 2 cameras, beginning either from Bride's Preparation through to the First Dance, or the Guest Arrivals through to the Evening Reception.

The finished product is usually between 1 to 2 hours long and is provided on a USB Data Stick in High Definition mp4 format. It will also feature the ceremony and speeches in their entirety with the parts of the day around them edited to music of your choice. I am also happy to discuss other ideas with this package you may have either about the edit or moments you might like to be captured throughout the day.

## **CLASSIC +2 - £2300**

This option includes 2 cameramen with 4 cameras. This is a good option for people with over 150 - 200 guests with a greater level of coverage to capture all the guests. This package also runs for 10 hours of filming coverage. The extra cost covers the second camera operator and the work required to incorporate the extra footage into your final film. Extended hours can be discussed at the consultation.

## **DVDs**

DVDs are available for an extra fee of £100 for 3 copies, this also includes the image file supplied on the USB stick. The image file allows you to burn further copies if you want to.
